## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election with traverse of the Restriction Requirement in Paper No. 6 is acknowledged. The traversal is on the ground(s) that that the grounds have not been substantiated for the validity of the requirement. This is not found persuasive because since the newly applied reference to Tusim et al, having an effective filing date prior to the instant case, does disclose a polymer having a pore size called for in the product claims of the Group I and covered by the process claims of group II, therefore the groups of claims are not linked by a single inventive concept. Claims 1-16 remain withdrawn from further consideration as not reading upon the elected invention.

The requirement is still deemed proper and is therefore made FINAL.

### ***Claim Rejections - 35 USC § 103***

2. Claims 17-83 are rejected under 35 U.S.C. 103(a) as being unpatentable over Tusim et al, of record.
3. Patentees disclose making a polymer foam by extrusion and thereafter cutting the foam into sheets and having closed and open cells

having a cell size within the claimed range (note for example EXAMPLES 5, and claim 18 of the patent.

4. It would have been obvious to one skilled in the art that the foamed polymers of the references would read on the foamed polymers of the reference since they have been made by extrusion and the foamed polymers were opened by cutting.

5. The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application

indicating obviousness or nonobviousness.

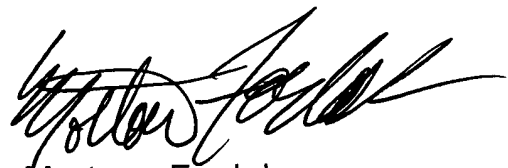

Claim 59 is rejected as being indefinite under 35 USC 112 second par. because the claim has been designated to be cancelled yet instructions to cancel it has not been made and is still in the case as a viable claim. Correction is requested.
